

CheckUp Plus™

Help employees stretch their benefit dollars by adding CheckUp Plus to your dental plan. With the CheckUp Plus program, preventive and diagnostic services are not deducted from an employee’s annual maximum—leaving more money to use when it’s needed most.

Plus, there are no complicated rules to follow or rollover equations to figure out. It’s a simple approach: when employees see the dentist for exams, X-rays and cleanings, they won’t use any of their annual maximum, so it will be there for additional treatments they may need in a benefit year.

CheckUp Plus:

- Encourages employees to visit the dentist for routine cleanings, exams and X-rays—which can improve overall health
- Preserves annual maximum dollars for more serious or costly dental services
- Saves money in the long-term because preventive care can help reduce the need for more expensive dental treatment
