

Delta Dental's Networks: What's the Difference?

When you need dental care, choosing an in-network dentist is always a good idea. That's because network dentists have agreed to offer reduced fees and abide by our policies—and have met industry standards for care, safety and cleanliness. However, your specific dental benefits plan may offer access to one or more of our dentist networks.

Delta Dental PPO™

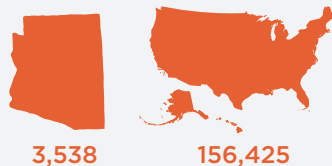

Access to more than 3,100 participating dentists in Arizona and 112,000 dentists in 278,000+ locations nationwide.^{1,2}

Provides the deepest discounts.

Delta Dental Premier®

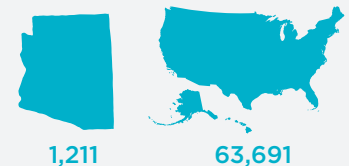

More than 3,500 participating dentists in Arizona and 156,000 dentists in 342,000+ locations nationwide.^{1,2}

Dentists have agreed to reduced fees for dental care services.

Deltacare® USA

Access to a national Dental Health Maintenance Organization (DHMO) that includes more than 1,200 participating locations in Arizona and 63,000 nationwide.²

A primary care dentist is selected from a panel of designated dentists.

80% of practicing dentists in the nation participate in Delta Dental PPO or Delta Dental Premier. In Arizona, 90% of practicing dentists are in these networks. That means it's always easy for you to find an in-network dentist.

The primary care dentist then manages your dental needs, including specialist referrals.

To find a participating network dentist, visit DeltaDentalAZ.com and use our dentist search tool or download the Delta Dental Mobile App for Apple or Android devices.
